BACKSPLASH PRO KIT

Tiling Solutions Simplified™

Your next kitchen renovation in one kit.

Six3Tile Pro Kits include everything you need to rapidly renovate any outdated kitchen with modern, luxury tile. Become a Six3Tile Pro with no additional tools or skills required.

NOW IN 4 NEW COLORS!

LUXURY TILE ON TREND

REFRESH YOUR OUTDATED KITCHEN WITH MODERN STYLES

Six3Tile backsplashes come in a variety of designs, so it's easy to find a tiling solution that compliments your space and suits your needs. Increase your unit's property value by quickly and easily upgrading your outdated tile with a fresh, modern look.

⚡ Lightning-fast Installation

Every second saved installing tiles gets you one step closer to an updated kitchen. Home Innovations Research Labs (HI), an independent, third-party research group, tested Six3Tile and found that our tile panels install 2x faster than ceramic tile!

💧 Proven Durability

To test Six3Tile's durability, HI's extensive rounds of testing included stain resistance, accelerated weathering, and water resistance. Six3Tile passed all testing, proving that our tile-panels are a great alternative to ceramic tile, with a fraction of the installation time.

ELEVATED STYLE, EASY INSTALLATION

Quick & Easy Application

Rapidly renovate your kitchen backsplash with no special skills or tools. Six3Tile installs 2x faster than laying traditional ceramic tile, reducing tenant displacement and saving you time and money.

Adhesives and Substrates

Six3Tile can be applied over existing tile or any other flat surface. When attaching Six3Tile, use traditional construction adhesive to affix to existing ceramic tile to secure each tile panel directly to the wall.

Finishing and Grouting

Finish off exposed ends with trim to give your backsplash a custom, professional look. Non-sanded or unsanded grout can be applied as soon as the panels are installed.

Care and Maintenance

Standard household sponges or clean, soft towels paired with any typical, non-abrasive cleaning products can be used to keep tile panels clean. White vinegar is perfect for tough stains.

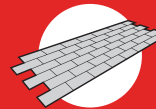

BENEFITS

Installs 2x faster
than ceramic tile

Durable &
Stain Resistant

Pre-cut tile panels

No special skills
or tools required

Hassle-free,
grout immediately

Quick and easy, reduced
resident displacement

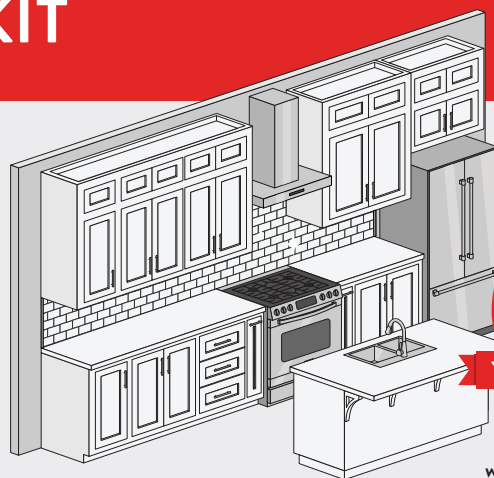

WHAT'S IN THE BOX?

YOUR NEXT RAPID RENOVATION IN ONE KIT

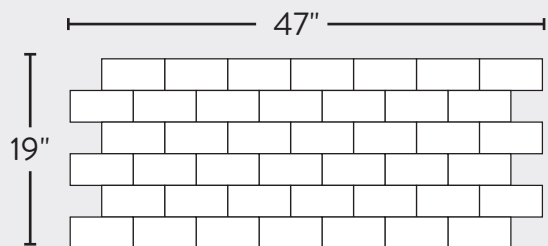

The Six3Tile Backsplash Pro Kits include five individual tile panels to rapidly renovate any outdated kitchen with modern, luxury tile.

Designed to fit perfectly under standard cabinet heights with two traditional layouts and 30 square feet of coverage.

Simply cut, attach and grout immediately for a refreshed room renovation that requires a fraction of the time of traditional tiling methods.
